PROFILE SUMMARY

UI/UX Designer with 3+ years of experience designing complex B2B and enterprise products across insurance, SaaS and AI. I specialize in translating rule heavy, multi-role workflows into clear, scalable experiences across web and mobile. Experienced across product discovery, research, information architecture, interaction design, prototyping and production, with a strong focus on enterprise systems and human AI experiences.

PROFESSIONAL EXPERIENCE

UI/UX Designer — Injala Private Limited | B2B SaaS - (Jul 2023 - Jul 2026)

- Led end-to-end product design across complex insurance, SaaS and AI products, from discovery and workflow analysis through IA, interaction design, prototyping, high-fidelity UI and production.
- Designed multi-role enterprise workflows across 6 roles and 12 modules, covering project/policy management, rating, approvals, documents, communication and operational workflows.
- Translated complex business rules into state-driven quoting, binding and post-binding journeys, simplifying workflows across roles and business scenarios.
- Contributed to a 40% reduction in process time and reduced certificate issuance from 9 to 2 days, while supporting growth to 4,500+ active projects.
- Designed AI-assisted experiences including AI Bulk Upload and AI-powered insurance workflows, combining research across insurance risk, underwriting and decision-making with human-in-the-loop interaction, review, confidence, exceptions and user control.
- Built reusable product patterns and design-system foundations, and redesigned the Asuretify broker experience and onboarding using user interviews, Hotjar and Maze, collaborating with Product, Engineering and QA through implementation.

CORE CAPABILITIES

- Product Strategy & UX: Product Discovery · Problem Framing · UX Strategy · Information Architecture · User Journeys · Interaction Design · Prototyping · Product Thinking
- Enterprise Product Design: Complex Workflows · Multi-Role Products · Dashboards & Data-Dense Interfaces · Permissions & Approvals · Workflow Automation · Component Architecture
- AI Product Design: Human-AI Interaction · Human-in-the-Loop Workflows · AI UX Patterns · AI-Assisted Decision Support · Confidence & Exception States · Generative Interfaces
- UI & Visual Design: High-Fidelity UI · Visual Hierarchy · Typography · Layout & Composition · Responsive Design · Accessibility · Interaction & Motion Design · Design Tokens
- Research & Validation: User Research · User Interviews · Usability Testing · Heuristic Evaluation · Product Analytics · Qualitative Synthesis · Maze · Hotjar
- Collaboration & Delivery: Design Critique · Stakeholder Workshops · Cross-Functional Collaboration · Product & Engineering Partnership · Design Handoff · Design QA · Agile Product Development
- Tools & Delivery: Figma · FigJam · Figma Make · Framer · Spline · Lottie · Maze · Hotjar · UserTesting · Jira · Notion · GitHub

EDUCATION

B.Tech — Computer Science & Engineering Amity University, Ranchi | 2018–2022 | CGPA 7.77
